

2022 Board of Directors Applications and Nominations

2021 has been a busy year for REOCA as we promote and protect renewable energy. We did significant work following and promoting 2021 state legislation on renewable energy. Currently we are involved in making sure our county building codes promote and protect renewables. We developed an important presentation “Renewable Energy, Prosperous Pueblo” in concert with Pueblo’s Energy Future.

Now comes the time to look to next year. We will have our 2022 Board of Directors election. As part of our bylaws we give our membership the opportunity to apply or nominate individuals interested in joining the REOCA board. If you are interested in joining the board or volunteering in other ways let us know by sending us a message to info@reoca.org before November 1, 2021. Board members must be paid residential members or renewable advocates of REOCA.

In this message I would like to link the YouTube video “Why Renewable Energy is the future of Pueblo Colorado”.
